

"Teach students learning techniques proven to raise grades. Be trained to lead your own student enrichment days...For a fraction of the cost of buying in external trainers."

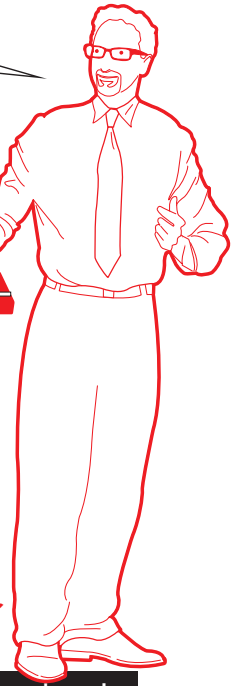

Learn from the experts how to lead your own student enrichment days.

# LearnWise

## Conference

**LearnWise is a unique course that supports the less able, helps students shift their grades from Ds to Cs alongside ensuring A\* gifted students achieve their potential.**

Learn to use the best visual materials and activities in education. Again and again and again and again

### How your students will benefit...

- organised learning: better grades
- greater independence
- more creative thinking
- higher levels of resilience
- better and quicker understanding
- effective communication

(see overleaf for more details)

**"Any school looking to develop their own in-house expert on study skills should send someone to be taught how to lead the LearnWise course. £395 includes the 'know-how', materials and permission for this person to lead a course providing techniques proven to raise attainment. Great course, great value."**

**Angela Cockerton** Literacy Consultant, Worcestershire LA - December 2010

### You'll come away with...

- Step-by-step tuition on how to deliver the LearnWise course to student groups in your school. (e.g. year groups, borderline students, students with AEN or gifted students).
- Concise, visual and practical notes for use when delivering the course to students.
- A USB stick containing high quality presentation slides for you to use with your students. (See overleaf for terms and conditions)
- A single-user copyright license giving permission for the use of the materials with student groups on-roll at your school.

**"Compare this to the cost of buying someone in to work for one day with one group...This is fantastic value for money."**

**Loreto Harley** G&T Coordinator Lea Manor School, Luton - December 2010

### Our expertise

Our three books and four booklets on visual thinking are sold globally. We are recognised as the leaders in this approach to learning. Our visual presentations are unsurpassed in education.

Visual techniques rank highest among the best evidence-based teaching strategies. And yet schools don't know how to capitalise on them to raise their students' exam grades. It's because most schools rely on out-moded and limited mind mapping. Our work is significantly different.

This course uses advanced mapping called Model Mapping. It's methodical rigorous and integrates perfectly with all classroom strategies. It delights Ofsted inspectors with its trail of evidence of the learning process. Our approach gets to the heart of the learning process — how to organise thoughts. That's why it brings immediate success to students of all ages and abilities.

**"The training was great, all my questions were answered. Fantastic presentation slides which are pretty much self explanatory and very easy to use"**

**Lucy Butler** Study Skills Teacher, Emmanuel School, Battersea December 2010

### Book your place now

**£395** 31 March 2011 Birmingham  
01 APRIL 2011 Central London

Price includes presentation slides worth £200

## Event details

THURS 31 MARCH BIRMINGHAM  
 FRI 01 APRIL LONDON

**£395**

(plus VAT) includes presentation slides worth £200

**ONLY £295**

(plus VAT) for each additional delegate from same school (includes presentation slides worth £200)

## Conference outline

This is your chance to learn from the experts. Learn how to teach students to use model maps to achieve the benefits listed below...

### Independent learners

- generate and organise ideas
- make notes and check for meaning
- assess their own learning and learn from peers
- use independent and cooperative learning skills in school and at home

### Organised answers

- plan and redraft coursework
- plan and write organised answers in exams
- deliver fluent structured oral presentations

### SEN student focus

- focus on their learning
- sustain their concentration
- organise their work
- remember more

### Know how to revise

- plan for revision
- check for understanding
- guarantee recall in exams

### Gifted student focus

- deepen and extend thinking
- increase levels of social inclusion
- greater flexibility of thinking
- increase resilience
- achieve potential in tests and exams
- life-long learning tool

## Terms and conditions

In attending this conference you agree to the following terms and conditions.

- The LearnWise materials may only be used to train students on-roll at your school.
- As part of the conference fee, the LearnWise course materials will be given to you on a USB stick at the end of the day.
- You will receive a single copy of the materials and your school will receive a licence to use those materials only in your school.
- The slides on the USB stick cannot be copied and will only run on a PC or laptop whilst the USB stick is in place.
- You will be able to open the stick on up to 10 PCs or laptops. After that the stick will be locked and no further PCs will be able to access the materials.
- The USB stick will not open on Apple Macs.
- The LearnWise course material is designed to be led to student groups. You will be trained to deliver the course to student groups. For these reasons, whilst you are granted permission to show the materials to staff at your school, we recommend that in the event you wish to train teachers in your school in the use of model mapping, you contact Model Learning to arrange an INSET.
- The LearnWise course material remains the property of Model Learning Ltd at all times and may not be copied.
